

How to trim your lampshade

We have a range of readymade trimmings that can be used to finish your lampshade. Alternatively why not make your own to match your fabric.

Make your own trimmings

Make your own lampshade trimmings with the Bias Tape Maker. Create customized single fold bias tape with the push of a button.

Cut your fabric into strips and feed into the Bias Tape Making Machine to create customized single fold bias tape with the push of a button.

Apply some double sided tape to the reverse and you have a matching finish for your lampshade.
